Dear Premier Clark:

Re: Balancing Karma, Doing Right and the English family.

I am writing in my capacity as a recently appointed director of Angleland Holdings Ltd. and Nederland Holdings Ltd. and on behalf of Mr. John English and his two children, Dillon and Kimberley, to request a private meeting with you or someone designated by you to open private discussions intended to lead to resolution of the harm caused to the English family by an unfortunate and, at times, violent criminal conspiracy carried out by agents and / or employees of the Government of British Columbia that resulted in their family and corporate property being conveyed into the possession of British Columbia Investment Management Corporation through its subsidiary Parkbridge Lifestyle Communities Ltd., which, to my knowledge, has retained possession and title to that property contrary to section 354 (1) (a) of the Criminal Code of Canada.

The facts of the harm inflicted upon our friends, neighbours and fellow residents of this great province, John, Dillon and Kimberley English, who fell victim to a criminal organization that was unrestrained by moral principles or ethics, are notorious, undisputed and represent an unfortunate deviation from the good governance principles and ethics that have characterized you and your colleagues since you formed the government of our great province.

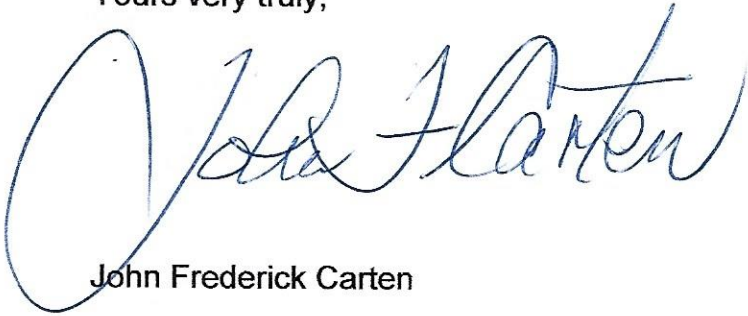

I am confident that these same good governance principles and ethics can lead us to a mutually satisfactory "good faith" resolution that is in the best interests of all concerned including the reputation of our great province as a jurisdiction that respects for the institution of private property, the rule of law and the independence of the judicial process.

The enclosed correspondence between myself, BCIMC and their solicitors along with a recent blog post will assist you and your colleagues understand some of the significant and sensitive political interests that are involved and why a fair and balanced resolution of this matter can only be achieved with your political leadership and direction.

With your gracious intervention let us begin the process of assisting the Goddess of Justice rebalance the karma, do right and restore the English family to the position they

were in before the state sanctioned rampage of cruelty, violence, and gross violations of law and human decency began.

Yours very truly,
