**NOTICE TO ADMIT REPLY**

**Filed by:** Dennis James Watson (the "defendant")

To: Postmedia Network Inc. and Kim Bolan

In Reply to the Plaintiffs' Notice to Admit dated September 21, 2022

1 I have already addressed all of this in my Response and Counterclaim. I have taken down the 13 posts so there is nothing left to talk about. The 14th post is new. On September 17th 2022 I made a blog post stating that Kim Bolan is suing me. Yes I made that blog post. There is nothing in that post that is untrue. Is there anything in that post the plaintiffs object to? Please advise.

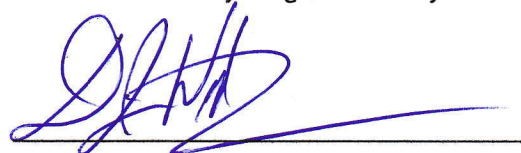

2 This whole case is covered by the Protection of Public Participation act.

3 I did not receive the two emails the Plaintiff claimed they sent to my old email address August 2021. The old email address letfreedomring@hotmail.com was hacked and locked. My proper email address which is posted on my blog and website is: dennis\_watson100@protonmail.com

4 I have been blogging for over 10 years. The first I heard there was any concern about any of this was when I received the Statement of Claim August 31, 2022. This case should be dismissed.

5 Everything I have said in my Reply and my Counterclaim is true. Everything else I deny.
